Background

No one needs to explain that our Health Care system is in crisis. Thousands of people experience it every day and there will be more misdiagnosis, bogus research, rationed care and death if the trend continues. Three reasons have been provided as potential causes for this predicament:

1. Health Care is more about \$\$ than health
2. Mandated “Standards of Care” are not addressing individual needs
3. a great many health-care providers are abandoning their practices because of rising costs and government interference.

Using our public (free) software and classes, your audience can have dominion over their own health.

Audience Benefits

Your audience would have the opportunity to gain:

- **TOOLS** – public access to softwares, texts, charts and educational videos in support of SELF HEALTH
- **SOLUTIONS** – to prevalent health issues such as vaccination damage, nutritional imbalances, release from PTSD, allergies, toxins, threatened pandemics, resistant pathogens, GMO caused illness, radiation poisoning and supposed over-population.
- **INSIGHTS** – Vocal Profiling goes reveals the Secret Self that can provide the opportunity for self-awareness, enlightenment and optimal health
- **INFORMATION** – withheld by BigPhama, BigFarma and Big Brother plus information showing that frequency is not only our new medicine but simultaneously an ancient mystery revealed.

- **CHOICE** - eliminate damaging interference with health freedom and end of life choices
- **TRUTH** - Software to discern the truth concerning government, political, press, marketing and relationship misinformation
- **NETWORKING** - An organized network to bring The People together to provide community and individual dominion over health decisions and solutions: Health for the People by the People.
- **Options** - for predictive, mobile and a disease free existence for issues previously thought to be incurable; for space travel because myopathy and bone loss issues are no longer obstacles
- **Verification/Information** - How your biological DNA internet can be programmed by your words and environmental frequencies

By sharing this information, you can offer your audience the opportunity to be a part of a new model of tomorrow.

Description:

In an attempt to provide options to the ever increasing restrictions placed on Health Care and Health Freedom, easy-to-use software programs are being offered to the public so that individualized, computer reports can be created in just a few minutes; allowing citizens to predict, provide and manage their own health care.

In particular, exposure to radiation has been proven to cause future health issues that seem hidden from the originating source: the Fukushima disaster. A December, 2011 article in the

Internal Journal of Health Services has estimated that more than 14,000 in the United States are linked to the radioactive fallout associated with the nuclear disaster in Japan.

People need to get health and stay healthy. Sound Health is offering public access classes and softwares during a Give-a-Way program sponsored by the Institute of BioAcoustic Biology in Ohio as an attempt to create a system of Health for The People by The People.

No one needs to explain that our Health Care system is in crisis. Thousands of people experience it every day and there will be more misdiagnosis, bogus research, rationed care and death if the trend continues.

Biographic info

Sharry Edwards has been accused of being too scientific by some, too esoteric by others. In actuality she is a bridge between both fields of inquiry. Sharry is the acknowledged pioneer in the emerging field of Vocal Profiling using BioAcoustic Biology. She has for many years provided the leading-edge research to show the frequencies of the voice can be used to create a holographic representation of health and wellness. Her research has caught the attention of even large pharmaceutical houses, government agencies, alternative health providers and those who wish to create a better future. Recent AT&T declared that bioacoustics is the “medicine of the future”.

From birth to death, we use sounds to express our needs and emotions, but there are additional layers of information hidden within the words. In modern times we possess only limited conscious awareness of this information for ourselves or as a means to interpret the intentions of others.

Vocal Profiling has the ability to let us know the intentions of our leaders; the motivations of our partners; the foundation of our sense of well-being. Would those abilities be of value in the struggle to attain dominion over our intrinsic right to personal freedoms?

Imagine a future in which the individual frequency based biomarkers contained within the voice can be used to keep us and our world, healthy and emotionally balanced.

Vocal Profiling software has been developed that can use the components of the voice to create a matrix of information about anyone, from fundamental DNA, to the hidden intentions of those who claim to speak for us.

Sharry's intention is to demonstrate how the present system of health is akin to governmental tyranny and is both a tragedy and an opportunity for, We THE PEOPLE, to take charge of our own health using a new paradigm of SELF HEALTH.
